## Hiren 039;s BootCD PE

### What's New in the Hiren 039;s BootCD PE?

A new, fresh and clean design experience for Windows 10. The Microsoft Store works much like the Apple App Store, bringing together the best apps from Microsoft's Windows Store and Windows Phone Store into one place. With the Windows Store, app developers can sell their apps worldwide, with no restriction on pricing or territory restrictions. Features:- Supports all current Windows 10 devices- Full boot-to-lock screen (in Windows 7, 8.1, or 10) no longer requires a BIOS setting change- Enables users to boot to a default Windows 10 Home or Pro upgrade- No longer requires a Windows 8.1/8/7 USB flash drive- New boot options include command line and GUI- Integrated with many features, such as Windows Mobility Center, Windows Search, and Windows Defender- Build 10586 release (found in Windows 10 Creators Update) If you're not a fan of Windows 10, you can remove the elements of Windows 10 with Disk Cleanup. A simple tool to help you free up storage space by removing unwanted components of Windows 10. Features:- Disk cleanup is completely free and does not need any activation key- Easy to use: no need to enter Windows 8/8.1/10 license key, just select the files or folders you want to remove and click "Clean up"- Supports Windows 8.1/8/10, including the latest release, build 10586 At the Windows 10 Anniversary Update, Microsoft introduced the Fast Startup feature. This feature starts your computer in low power states when it's not in use, rather than waiting until you launch an app and turn on your computer. This way, your computer can run faster when it is turned on. So now, the Windows 10 Anniversary Update, you can also enable Fast Startup on Windows 7 and Windows 8.1/8. To do this, open the Control Panel. Then, select the Performance and Maintenance category. You can also access this via Start Menu / Settings / Change PC settings / Power Options. Now, you can control power states with an option called "When I close the lid...". This feature allows you to have more flexibility with power saving states, and for your computer to go into an energy saving mode when it's closed. In Windows 10 Anniversary Update, there is a new version of Task Manager. As the name suggests, this feature can display information about your running processes and services on your computer. It shows you the details about your system's startup, shutdown, and reboot operations. The Task Manager can also provide a window where you can click and start an app. You can see the details about the processes (such as CPU and memory) and applications that are running. Today, the update that is referred to as the Windows 10 October 2018 Update is being rolled out by Microsoft. As stated by the company, this update is a cumulative update to Windows 10 that brings many improvements and new features

---

## System Requirements:

RAM: 2 GB Processor: Intel Core i5-760 or AMD equivalent Graphics Card: NVIDIA GTX 660 or AMD equivalent or better  
Hard Drive Space: 10 GB of free space. Sound Card: Interface: Windows 7, Windows 8, Windows 8.1 or Windows 10
